SCREWED.

All it takes is one loose joint to put the brakes on production... Don't take that chance.

Introducing the all-new line of 3M™ Scotch-Weld™ Anaerobics from the industry leader in adhesive technology! Designed to deliver a permanent bond without a premium price, 3M™ threadlockers, thread sealants, retaining compounds, gasket makers and anaerobic activators are available in smaller case sizes to help you reduce your overhead.

3M™ Scotch-Weld® Anaerobics – proven performance from the name you trust.

For a FREE full-size sample of Scotch-Weld™ Threadlocker, visit us online at 3M.com/MRO or call us at 1-800-555-555 x9999.

INHALATION TECHNOLOGIES

Each year, 3M Drug Delivery Systems makes more than 60 million metered dose inhalers (MDIs). Our proven track record includes development of the first metered-dose inhaler (MDI) and development of the first CFC-Free MDI.

TRANSDERMAL TECHNOLOGIES

3M Drug Delivery Systems has provided components for transdermal systems for over 20 years. Technology development, which utilizes and builds upon 3M's core technologies, is the foundation of our expertise in skin adhesion and 7-day wear products.

Systems »
As our technologies continue to advance and evolve, system optimization is just one area of expertise we offer to address MDI development needs.

Components »
We are the only MDI component supplier that manufactures both valves and canisters, enabling us to optimize these components simultaneously.

Education »
[Information and all-to-action for this content]

Systems »
For the complex process of system development, we use a full array of 3M material technologies. Check out our interactive demos to find a solution that is right for you!

Components »
Our complete line of backings, liners, membranes and foam tapes can be used for a variety of transdermal systems, or modified for unique needs.
